

Cedar | Release notes

EXTERNAL TESTFLIGHT November 9, 2026

Version 1.0.0

Build 82

Right Now opens the Live page with live games, favorite channels on air and your reminders. On Apple TV, Cinema Lighting dims your HomeKit lights while Cedar plays. On iPhone, iPad and Mac you can show what you're watching on Discord and share ratings to Cedar's Discord. Network Shares adds SMB alongside WebDAV, sports game pages gain head-to-head records, standings, form and better lineups, and many settings now follow the profile.

1 Highlights

4 new, 1 improved

+ NEW

Right Now

A Live page that opens with live games, favorite channels on air and your reminders. On Apple TV, choose it under Live TV View.

iPhone Apple TV

+ NEW

Cinema Lighting

Dims the lights in a HomeKit room while Cedar plays and puts them back when you stop. It can follow sunset. Experimental.

Apple TV

+ NEW

Share to Discord

Show what you're watching as your Discord status, and share your ratings to #ratings on Cedar's Discord. Experimental.

iPhone iPad Mac

+ NEW

SMB network shares

Connect SMB shares as well as WebDAV, together under Network Shares.

IMPROVED

Sports game pages

Add head-to-head records, mini standings, recent form and officials, with better lineups and player photos.

2 Live TV, sports and DVR

5 new, 10 improved

On Now

IMPROVED

Favorites no longer repeat in On Now, and genres move to Browse by Genre.

Remove from Continue Watching

+ NEW

Remove a live channel from Continue Watching.

Live page

IMPROVED

Custom Lineups appear in the category list, and the guide is taller.

Apple TV

Multiview full screen

NEW

Play Multiview full screen.

iPhone iPad

Stalker portals

IMPROVED

Sign in the way MAG boxes do, with clearer errors when a portal refuses.

Recording status

NEW

Channel and programme pages show what's recording, with Stop Recording, Cancel Recording and Watch from Start.

Scheduled Recordings

IMPROVED

The Scheduled Recordings shelf shows recordings as cards.

Home DVR

IMPROVED

The Home DVR you pick is saved with the profile.

Preferred Channels

NEW

Choose the sports networks Cedar should try first, found by scanning your guide.

Team pages

IMPROVED

Open with the live or next game.

Soccer clubs

IMPROVED

A club's games from every competition appear together.

League Overview

NEW

A league page opens on an Overview of games, standings and news.

iPhone iPad Mac

Lineups

IMPROVED

Lineups are clearer, with rugby and baseball layouts.

Sports channels

IMPROVED

Guide matching for sports channels is more accurate.

Sports cards

IMPROVED

Follow your overlay style. Feature becomes Showcase Landscape, and Feature XL is new.

3 Playback and sources

3 new, 3 improved

Only When Needed

NEW

Subtitles turn on when the audio isn't in one of your subtitle languages.

Trailer Language

NEW

Choose the language trailers play in.

Season posters

NEW

Choose where season posters come from, and swipe through them.

Stats for Nerds

IMPROVED

A verdict row says whether playback is smooth, waiting on the source or dropping frames.

Up Next

IMPROVED

The countdown is easier to read.

Apple TV

Continue Watching

IMPROVED

Shows with new episodes move back up.

4 Home, profiles and settings

5 new, 6 improved

Social Home

NEW

A Home Layout with story rings for trailers, For You, services, networks and studios. Experimental.

iPhone iPad Mac

Discord sign-in

IMPROVED

Syncs across your devices, and your Discord avatar can be your profile picture.

iPhone iPad Mac

Reorder Profiles

NEW

Put profiles in the order you want.

Profile settings

IMPROVED

Seek, gesture and player control settings follow the profile. Download limits stay with each device.

Always Use Posters

NEW

Show landscape Branches and folders as posters when you open them.

Age Rating

NEW

Cedar Posters can show the age rating.

Focus Ring and Focus Color

NEW

Choose how the focus highlight looks.

Apple TV

Poster Style

IMPROVED

The editor is redesigned, with Poster Depth and a frosted Glass finish. The genre line is one size across a Branch.

Remote

IMPROVED

Holding Select opens the standard menu, and Left and Right move through the hero.

Apple TV

Settings

IMPROVED

Pages are reorganised, with shorter footers.

Calendar

IMPROVED

Includes shows you're watching, and unstarted titles say Start Watching.

5 Fixes

10 fixed

- Streams play again after Cedar returns from the background with the VPN on, without toggling the VPN.
- Removed playlists no longer leave a guide behind that fails to refresh. Leftover guides can be removed in Live TV Playlists settings.
- Game pages no longer stutter as they open, and the Preferred Channels scan no longer freezes.
- Minimizing and expanding the player no longer flashes.
- Availability marks show on Cedar Posters again.
- Titles out on release day no longer appear twice in Upcoming and Continue Watching.
- A deleted AI For You Branch no longer comes back.
- A removed live channel no longer stays in Continue Watching.
- Taps on the title menu always register, and focused posters no longer overlap their neighbours.
- The content rating notice no longer jumps as it goes away.

6 Known issues

2 known issues

- Titles from SMB shares don’t open in Infuse or other external players yet. Play them in Cedar.
- The player’s episode list doesn’t use season sections yet. Use the title page to jump between seasons.
